AJAY PRAJAPATI

Cybersecurity Specialist | Full-Stack Developer | Tech Innovation Leader

+91-8369564372 64.ajayprajapati@gmail.com linkedin.com/in/ajayprajapatii Mumbai, Maharashtra, India

PROFESSIONAL SUMMARY

Results-driven Cybersecurity Specialist and Full-Stack Developer pursuing BSc Computer Science at Patkar Varde College (2023–2026). Awarded Best Research Paper at International Conference CONFAB 2025 for pioneering mobile-based cybersecurity education platform. Proven leader managing 19+ member teams, reaching 1,000+ individuals through cybersecurity awareness campaigns, and delivering 20+ public seminars. Skilled in Python, Flutter, Next.js, React Native, Firebase, and AI integration (Gemini API). Demonstrated success building and deploying live production web and mobile applications. Passionate about bridging cybersecurity education gaps through technology innovation.

CORE COMPETENCIES

Programming: Python • C++ • Java • Dart **Web:** HTML5 • CSS3 • JavaScript • TypeScript • Next.js • React Native
Mobile: Flutter • Dart • React Native **Backend/DB:** Firebase • Supabase **AI:** Gemini API • AI Automation Tools
Other: SEO Optimization • Cybersecurity Awareness • Team Leadership • Public Speaking • MS Office Suite

EDUCATION

BSc Computer Science | Patkar Varde College, Mumbai *June 2023 – May 2026 (Expected)*

- Third Year Student with consistent academic performance and active research output

HSC (12th Grade) | Nirmal Junior College *June 2023 | Grade: 67%*

SSC (10th Grade) | S.V.N. English School *March 2021 | Grade: 85%*

PROFESSIONAL EXPERIENCE

Frontend Developer | Commondo Protection Service *2025 (3 Months)*

- Designed and developed responsive web modules and pages for the company's platform using Next.js framework, translating business requirements into clean, performant frontend interfaces
- Replicated and adapted the same web modules into mobile screens using React Native, ensuring UI/UX consistency across web and mobile platforms
- Collaborated closely with the product team to iteratively refine designs based on feedback, delivering pixel-accurate, component-based frontend code within project timelines

President – Quick Heal Cyber Warriors Club | Quick Heal Foundation Internship *Aug 2024 – Sep 2024*

- Led cybersecurity awareness operations for a 19-member team comprising 3 officers and 16 Cyber Warriors, conducting weekly strategic meetings and setting quarterly outreach goals
- Established institutional partnerships with schools, NGOs, and industry stakeholders to amplify program reach and credibility
- Delivered 20+ public seminars at schools and tech exhibitions, personally reaching 500+ community members on phishing, social engineering, and safe digital practices
- Mentored Cyber Warriors in technical skills, public speaking, and professional development, resulting in Best Entry College Award for the chapter
- Nominated for Best President Award in recognition of leadership and measurable community impact

PROJECTS

Cyber Safe Companion – Cybersecurity Awareness & Education App | *Flutter • Firebase • Gemini API*

- Architected a full-stack mobile application with 7 core modules: Cyber News, Cybersecurity Quiz, Security Tips, Cybercrime Reporting, Cyber Bot (AI), Psychology Support, and Password Strength Checker

- Integrated Gemini API-powered AI chatbot providing personalised, real-time cybersecurity guidance and age-based threat assessment
- Implemented multi-level learning progression (Beginner → Advanced) with gamified quizzes, progress tracking, and scam psychology support modules
- Research paper based on this app accepted and awarded Best Research Paper at International Conference CONFAB 2025

Research Paper: "Cyber Safe Companion: A Comprehensive Mobile Application for Cybersecurity Awareness and Education with Age-Based Threat Assessment"

ESSS Cube – Event Management Company Website | *Next.js • TypeScript* Live: https://essscube.vercel.app/

- Designed and deployed a production-grade event management website with responsive UI, modern navigation, and optimised page performance
- Built using Next.js App Router and TypeScript ensuring type-safe, scalable, and SEO-friendly architecture

RhythmFlow Academy – Dance Course E-Commerce Platform | *Next.js • TypeScript • Supabase* Live: https://rhythmflow-academy.vercel.app/

- Developed a full-stack course-selling platform featuring course listings, student registration, and Supabase-powered real-time backend
- Implemented authentication flows, course catalogue, and payment-ready architecture with server-side rendering for fast load times

Ubuntu Fest 2025 – College Fest Website | *Next.js • TypeScript* Live: https://ubuntu-fest2025.vercel.app/

- Built a dynamic college fest website with event listings, schedules, and registration flows using a mobile-first design
- Delivered a performant, SEO-optimised site leveraging Next.js static generation and TypeScript for maintainability

PhishShield – Advanced Phishing Detection Platform | *JavaScript • HTML5 • CSS3* Live: https://ajayprajapati83.github.io/Phishshield/

- Developed a real-time phishing URL detection system with educational modules and instant URL scanning with detailed threat reporting

MalwareScanner Pro – File Security Analyser | *Python • Tkinter* Live: https://ajayprajapati83.github.io/P2_MalwareScanner/

- Built a desktop GUI application for detecting and managing suspicious files with folder scanning, safe deletion protocols, and security confirmation dialogs

ACHIEVEMENTS & COMPETITION RECORD

Key Highlights

- Best Research Paper Award – International Conference CONFAB 2025, Patkar Varde College (Jan 11, 2025)
- Best Entry College Award – Quick Heal Cyber Warriors Program, presented by Hon. Governor of Maharashtra Shri C. P. Radhakrishnan, Pune
- Nominated for Best President Award – Quick Heal Cyber Warriors Club
- Essay Writing Competition Winner – Cosmos Jallos College Fest, Valia College, Andheri (Jan 2025)
- Research Paper Presenter – International Conference CONFAB 2025 (Jan 11, 2025)
- Multiple Debate Competition Winner – Model United Nations and inter-collegiate tournaments

Inter-Collegiate Competition Record (14 Events)

#	Event / Competition	Position	Venue / Fest
1	Climax Writing	**1st Place**	SHIVOTSAV (Seth Vidya Mandir)
2	Creative Relay Writing	**2nd Place**	SHIVOTSAV (Seth Vidya Mandir)
3	Book Review	**2nd Place**	SHIVOTSAV (Seth Vidya Mandir)
4	Best CL	**1st Place**	PHOENIX (KJ Somiya)
5	Treasure Hunt	**1st Place**	DLU (Dalmia College)
6	Debate	**2nd Place**	DLU (Dalmia College)
7	Best CL	**1st Place**	DLU (Dalmia College)
8	Tech Quiz	**1st Place**	Ztech (NL College)
9	Best CL	**1st Place**	Ztech (NL College)

#	Event / Competition	Position	Venue / Fest
10	Hackathon	**3rd Place**	Lala Lajpat Rai College
11	Debate	**2nd Place**	Aagaaz (Lords Universal College)
12	Sell The Product	**2nd Place**	Pravinostav (Pravin Rohindas College)
13	D.I.P.A.M.	**3rd Place**	D.I.P.A.M
14	Research Paper	**Best Research Paper**	CONFAB 2025

IMPACT & INNOVATION

- Reached 1,000+ individuals across educational institutions and community sectors through cybersecurity campaigns
- Delivered 20+ public seminars on cybersecurity with measurable knowledge improvement among attendees
- Mentored 16+ Cyber Warriors in technical skills and professional development
- Deployed 4+ live production web and mobile applications with real-world users
- Published peer-reviewed research paper at international level on cybersecurity mobile education

CERTIFICATIONS

Real Time Threat Detection and Management | Chikitsak Samuha's Patkar Varde College (Autonomous), Mumbai
16th April – 16th June, 2025

- Erasmus+ Programme co-funded course covering real-time threat detection methodologies, security incident response, and proactive threat management strategies

Python for Cyber Security | Chikitsak Samuha's Patkar Varde College (Empowered Autonomous), Mumbai*15th October – 18th December, 2025*

- Erasmus+ Programme co-funded course on applying Python for cybersecurity tasks including scripting security tools, automating threat analysis, and building security applications
